Bali - Lombok - Komodo (Indonesia) 1:150,000 Travel Map, waterproof, GPS-compatible, by REISE This map is waterproof and tear-resistant, highly suitable for tropical conditions, double-sided to provide the best balance between a good scale and a convenient sheet size (size 100 x 70 cm / 39.5 x 27.5 in) with topographic and tourist information. Each island is presented separately with Bali and Nusa Penida on one side of the map, and Lombok plus Komodo with Rinca and the surrounding small islands of the Komodo National Park on the reverse. A separate small inset also shows the whole of that part of Indonesia.

Topography is indicated by altitude colouring with spot heights and names of mountain ranges and hills. Detailed presentation of the road network includes local tracks and selected footpaths; ferry connections to other islands of the Indonesian archipelago are also marked. Local administrative units are shown with their boundaries and names. National parks and other protected areas are highlighted. A wide range of symbols shows various places of interest including UNESCO sites, temples of various religions, museums and monuments, volcanoes and other natural features, beaches, diving and surfing sites, golf courses, etc. Latitude and longitude lines are drawn at 5 intervals. Each island has a separate index of localities. Multilingual legend includes English, high quality German cartography.
