

TRAPPS WAR (THE CAPTAIN TRAPP SERIES Book 1)

TRAPPS WAR heralds the first of five rollicking, rumbustious and utterly deplorable adventures that comprise Brian Callisons best-selling saga of the unapologetically amoral Captain Edward Trapp, his appalling sidekick Gorbals Wullie, his equally degenerate succession of crews and ever-more decrepit tramp steamers which persist in sinking beneath him, as chronicled by the bloody-minded reprobates increasingly bemused Chief Officer, Miller. This, Trapps maiden voyage into self-employed skullduggery, begins in 1942. In the war-torn Mediterranean the island of Malta is being starved by the near-impenetrable Axis blockade. Only the SS Charon, a rusting, wheezing eight-knot coal burner deep-laden with black market contraband routinely slips with ease between the opposing forces in those lethal waters. Until, on one high-explosive night, the Royal Navy finally catches up with her. And an admiral has An Idea Whereupon a black-affronted, vociferously protesting - to say nothing of most unlikely Lieutenant-Commander Edward Trapp, RN - is forced back to sea in his by-then-somewhat deviously modified coffin ship to wage an unorthodox, violent and often harrowing war for the Allies but will he? Because Trapp, privateer and born survivor, has always tended to view the inconvenience of global conflict with an eye rather more attuned to profit-driven opportunism than patriotic duty. In fact, admiral or no bloody admiral, the only war Trapp plans to fight is Trapps War! This must be Brian Callisons best book. It is even better than A Flock Of Ships and I didnt think he could achieve this. I didnt think anyone could ... there can be no better adventure writer today. ALISTAIR MACLEAN. hilariously funny, moving, and extremely exciting. DICK FRANCIS.
