

## Anchor for Angkors Children

In this sincere, bolts and all account, Peter Keen, a technical support volunteer in Cambodia, draws attention to the work of the Angkor Hospital for Children. It is a record of real people in live situations. The Angkor Hospital for Children is an organisation that has changed and continues to change the lives of many children in Cambodia. There is no safety net or social security in Cambodia. Families and friends are all important when times are tough. Peter Keen's photographs and descriptions give an insight into the work already achieved, and reveal a nation whose people shine out as examples of love and care. This book has been produced with the sole aim of raising sufficient funds to purchase test equipment for the service and repair of the medical equipment at Angkor Hospital for Children and to assist in further training of Biomedical Engineers at the hospital.
