

## Aurore (French Edition)

Ce livre est parfaitement mis en page pour une lecture sur Kindle. Aurore, Réflexions sur les préjugés moraux est une œuvre de Friedrich Nietzsche. Elle se compose de 575 aphorismes repartis en cinq livres. Le livre est une véritable avancée car Nietzsche y expose avec beaucoup de cohérence et de détails un grand nombre de thèses (a-moralisme de l'existence, psychologie des croyances morales, erreur de la causalité morale, suppression de l'idée de punition, besoin de réévaluer nos actions et nos sentiments, etc.) Une table des matières interactive vous permettra de naviguer facilement d'un chapitre à l'autre.
