

## Summer: (Starbooks Classics Editions)

Summer is a novel by Edith Wharton published in 1917 by Charles Scribners Sons. The story is one of only two novels to be set in New England by Wharton, who was best known for her portrayals of upper-class New York society. The novel details the sexual awakening of its protagonist, Charity Royall, and her cruel treatment by the father of her child, and shares many plot similarities with Wharton's better-known novel, Ethan Frome. Only moderately well received when originally published, Summer has had a resurgence in critical popularity since the 1960s.
