

# Candide

Candide is a French satire first published in 1759 by Voltaire, a philosopher of the Age of Enlightenment. It begins with a young man, Candide, who is being indoctrinated with optimism by his mentor, Pangloss. The work describes the abrupt cessation of this lifestyle, followed by Candide's slow, painful disillusionment as he witnesses and experiences great hardships in the world. Voltaire concludes with Candide, if not rejecting optimism outright, we must be practical.
