

Judas Unchained

The high-action concluding novel of the Commonwealth Saga from one of the worlds bestselling Science Fiction writers. After hundreds of years secretly manipulating the human race, the Starflyer alien has succeeded in engineering a war which should result in the destruction of the Intersolar Commonwealth. Now, thanks to Chief Investigator Paula Myo, the Commonwealths political elite finally acknowledges the Starflyers existence, and puts together an unlikely partnership to track down this enigmatic and terrifying alien. The invasion from Dyson Alpha continues with dozens of Commonwealth worlds falling to the enemy. The navy fights back with what it believes to be war-winning super weapons, only to find that the alien fleet has equally powerful weapons. How the aliens got them is the question which haunts Admiral Kime. Could it be that the Commonwealths top-secret defence project has been compromised by the Starflyers agents, or is the truth even worse?
