

Les Mains Sales

Les Mains Sales is political drama set in the fictional country of Illyria between 1943 and 1945, the story is about the assassination of a leading politician. The killers identity is established from the beginning, but the question is whether his motivations were political or personal. Thus the plays main theme is not on who did it but on why it was done. Les Mains Sales is based mainly on the theme of existentialism which Sartre espoused, but many have taken it as a straightforward political drama.
