

Kwaidan

The publication of a new volume of Lafcadio Hearn's exquisite studies of Japan happens, by a delicate irony, to fall in the very month when the world is waiting with tense expectation for news of the latest exploits of Japanese battleships. Whatever the outcome of the present struggle between Russia and Japan, its significance lies in the fact that a nation of the East, equipped with Western weapons and girding itself with Western energy of will, is deliberately measuring strength against one of the great powers of the Occident.
