

Notes on Life & Letters

I don't know whether I ought to offer an apology for this collection which has more to do with life than with letters. Its appeal is made to orderly minds. This, to be frank about it, is a process of tidying up, which, from the nature of things, cannot be regarded as premature. The fact is that I wanted to do it myself because of a feeling that had nothing to do with the considerations of worthiness or unworthiness of the small (but unbroken) pieces collected within the covers of this volume. Of course it may be said that I might have taken up a broom and used it without saying anything about it. That, certainly, is one way of tidying up.
