

Between two seas: A journey into South Korea

South Korea is no longer the remote Hermit Kingdom of previous centuries. In a series of deceptively casual encounters, David Price reveals a country both volatile and ambitious, eager to take its place on the stage of the world's developed nations, while still preserving its unique traditions. His experiences provide a vivid cross-section of a society in dynamic growth, but also one in which family, church and temple, are of great importance. He discovers a breathtaking simplicity, the ancient traditions of this ceremonious people behind the brash image of modern Korea. Students and mask-makers, street girls and shamans, seasoned farmers and young soldiers, all draw him towards the heart of one of the most religious and zealous nations on earth. Yet he also shows a people endowed with a brutal realism - born of a long history of invasion - and reliant for their most progressive and imaginative ideas on the priests and women in their society.
