

The Cossacks: A Tale of 1852

This 1862 novel is Tolstoy's semi-autobiographical story of young Olenin, a wealthy, disaffected Muscovite who joins the Russian army and travels to the untamed frontier of the Caucasus in search of a more authentic life. Quartered with his regiment in a Cossack village, Olenin revels in the glories of nature and the rough strength of the Cossacks and Chechens. Smitten by his unrequited love for a local girl, Maryanka, Olenin has a profound but ultimately short-lived spiritual awakening. Try as he may to assimilate, he remains an awkward outsider and his long search for a more enlightened and purposeful existence comes to naught. The Cossacks was originally published in 1863 in the popular literary magazine *The Russian Messenger*. It was originally called *Young Manhood*. Both Ivan Turgenev and the Nobel prize-winning Russian writer Ivan Bunin gave the work great praise, Turgenev calling it his favorite work by Tolstoy. Tolstoy began work on the story in August 1853. In August 1857, after having reread *Iliad*, he vowed to completely rewrite *The Cossacks*. In February 1862, after having lost badly at cards he finished the novel to help pay his debts. The novel was published in 1863, the same year his first child was born.
