

The Works of Edgar Allan Poe, Vol. II: The Tell-Tale Heart and Others (Wildside Fantasy Classic)

Poe is generally considered the inventor of the detective fiction genre and is further credited with contributing to the emerging genre of science fiction. Here is a sampling, the second volume in a reprint of a famous edition of the works of Poe, a driven, passionate, difficult, often desperate man -- three-fifths of him genius, as Lowell said, and three fifths is more than most of the rest of us can claim or will ever have claimed for us.
