

## Tess of the dUrbervilles: Illustrated (Classics of the Western World Book Book 3)

The controversial masterpiece of 19th century Victorian Literature, Tess of dUrbervilles first appeared in the illustrated British newspaper The Graphic in 1891. The work was initially censored for its rigid and unconcealed look into hypocrisies of sexuality in Victorian society. Set in rural England during the economic depression of the 1870s, the novel poetically traverses the fictional landscapes of Wessex. Thomas Hardy tells the compelling story of Tess Durbeyfield by weaving peerless thematic elements of love, poverty, temptation, betrayal and destiny. This timeless classic has been edited for kindle readability with original illustrations. This edition includes linked table of contents for seamless digital navigation.
