

They Found Him Dead

The 60th birthday party of Silas Kane was marred by argument and dissension among his family. And then, the morning after the celebrations, Kane is found dead at the foot of a cliff. The theory that Silas accidentally lost his way in the fog is confirmed when the coroner returns a verdict of death by misadventure. But then Kanes nephew and heir is murdered and threats are made on the next in line to the fortune, throwing a new and sinister light on Kanes death. All clues point to an elderly lady of eighty as the killer. But as the redoubtable Superintendent Hannasyde delves further into the case he discovers that nothing is quite as it seems.
