

The Evil Shepherd

Ever wonder what it would be like if good met evil and then was invited over for dinner and drinks? If evil were interested in the politics and ethics that good was endeavoring to employ? how about if good fell in love with evils daughter after her husband who was also evil commits suicide? Welcome to 1922 and E.P. Oppenheims *The Evil Shepherd*. Francis Ledsam is one of Londons brightest and most successful defense lawyers. After successfully defending and proving the innocence of his latest client, Ledsam learns from his client that he in fact had committed the heinous murders he had been accused of, and others. Feeling pain at the thought that this monster is on the streets still because of him, Ledsam swears off taking clients that he cannot prove factual innocence of. It seems that he may have stumbled into a much larger nest of criminals than he was aware. His murderous clients father in law hunts down Ledsam in a restaurant and advises him that with in the evening, a crime would be committed, and prompts Ledsam to prove his new found goodness. This is a very interesting book. The premise is fairly simple, man falls in love with the wrong woman, daughter of an enemy. Because of this, good vs evil becomes common topics of discussion over drinks and dinner. Ledsam tries to catch Sir Timothy in criminal action, while Sir Timothy screws with him.
