

Foundling Mick

Volume 39 of 54 in Jules Verne's Extraordinary Voyages, first published in 1893. Foundling Mick is the story of Lil Mick and his rise from orphan status to riches. Mick's origins stem from an abusive and exploitative upbringing, and his rescue at a young age establishes him in his young life to eventually land a huge fortune and work to establish a piece of good in his homeland of Ireland. This particular edition is reproduced from English-edition public works, and is presented simply with an emphasis on straightforward presentation, attractiveness and continuity of appearance, with each title in the Extraordinary Voyages sporting a journal-style brown cover accompanied by a cover illustration and quote from the text on the back cover.
