

Kingdom of the Ice Bear: A Portrait of the Arctic

Kingdom of the Ice Bear: A Portrait of the Arctic 223 pp. Award-winning film-maker Hugh Miles and BBC producer Mike Salisbury undertook 16 expeditions to prepare a 3-hour film on the Arctic wilderness (aired on many PBS stations). Drawing on their diaries, they describe how the polar bear, caribou, musk oxen, and other species survive in this harsh but spectacular land. A spring filming excursion under the polar ice reveals the creation of a food chain of staggering profusion. During high summer, bugs (the air seemed to comprise 50% oxygen and 50% mosses) add to the richness of this unspoiled land. The authors' skill in filming is matched by a talent for prose that conveys the excitement (even euphoria), frustration, fear, humor, and wonder inspired by this expedition. A sensitively written and superbly illustrated book. Keywords: ANIMALS KINGDOM ICE POLAR BEAR ARCTIC MUSK OXEN CARIBOU NATURE SCIENCE EXPEDITION
