

The Sicilian Bandit

It is with cities as with men chance presides over their foundation; and the topographical situation of the first, and the social position of the latter, exercise a beneficial or an evil influence over their entire existence. There are noble cities which, in their selfish pride of place, have refused to permit the erection even of a few humble cottages on the mountain on which their foundations rested: their domination must be exclusive and supreme; consequently they have remained as poor as they are proud.
