

The Tragedy of Othello, the Moor of Venice; with Connections

More than a retelling, this aptly termed reconceptualization provocatively modernizes Shakespeares play. As in the original, the middle-aged general Othello the ``moor and young European noblewoman Desdemona fall in love and marry secretly. But Lester (To Be a Slave; John Henry) transplants the action from Venice and Cyprus to Elizabethan England and turns Iago and Emily into Africans like Othello, so that the three of them share a distinctly non-European point of view. Iagos envy of Othello and ability to whip him into a jealous rage at Desdemona are thus cast in a new light, though the tragic outcome remains the same. While the ending feels abrupt, Lesters novel succeeds in holding up a mirror to contemporary society. Phrases and passages directly based on Shakespeares language are printed in a different typeface, a device that may distract the reader but eases comparisons with the original work.
