

The Water Babies: A Fairy Tale for a Land-Baby

This is a magical fairytale about Tom, the little chimney sweep, who falls into the river after realizing his wretched appearance in the presence of a young female aristocrat. Upon falling in the river Tom encounters the wonders and fairies of the water world. And upon proving himself moral, is accepted by the other water babies. With exotic language specific to the world of the water babies, this proves a whimsical read for children of all ages.
