

## To the Lighthouse

To the Lighthouse is made up of three powerfully charged visions into the life of one family living in a summer house off the rocky coast of Scotland. As time winds its way through their lives, the Ramsays face, alone and simultaneously, the greatest of human challenges and its greatest triumph--the human capacity for change. A portrait in miniature of family life, it also has universal implications, giving language to the silent space that separates people and the space that they transgress to reach each other.
