

Everest: Reflections From The Top

The best climbers in the world offer reflections on reaching the summit of Everest in this pocket-sized inspirational book. On May 29, 1953, Edmund Hillary and Tenzing Norgay were the first ever to set foot on the highest point on earth: the summit of Everest. It was a magical moment. Since then many men and women have striven to reach the top of this awesome mountain, which can be at once beautiful and mystical, unpredictable and highly dangerous, never straightforward and always incredibly tough. In this remarkable book, mountaineers from around the world tell what motivated them to make their own summit bids. They highlight how it felt to reach the top and the impact it made on them, ranging from practical comments to spiritual reflections to philosophical statements on the future of our planet. Contributors include such climbers as: Chris Bonington, Alan Hinkes, Eric Simonson, Reinhold Messner, Jamling Tenzing Norgay, Bear Grylls, Greg Mortimer, Junko Tabei, Peter Hillary, Doug Scott and Stephen Venables.
