

## Dracula (Collection bleue) (French Edition)

Dracula nest pas le premier roman fantastique a exploiter le theme du vampire. Il marque pourtant une etape cruciale dans la litterature fantastique et en particulier celle abordant le theme des vampires; le succes du livre et la popularite du personnage lattestent encore aujourd'hui. Plus que le sens du recit et la maitrise du suspense de Stoker, cest la personnalite de son personnage principal qui fonde le mythe. Le comte Dracula, au-dela de la creature depouvante aux pouvoirs surnaturels, est avant tout un etre humain damne, un non-mort, et cest cette dimension complexe qui assure son charme. En effet, Dracula est un monstre mais est aussi un reprove, un rejete de Dieu, une personne a craindre mais aussi a plaindre. Mina Harker exhorte ses compagnons a eprouver a son endroit non de la haine mais de la pitie, ce qui nexclut evidemment pas de la determination pour sen debarrasser. Mais ce nest pas une ?uvre de haine. Le pauvre etre qui a cause toute cette souffrance est le plus malheureux de tous. Songez quelle sera sa joie a lui aussi quand, son double maléfaisant etant detruit, la meilleure part de lui-meme survivra, son ame immortelle. Vous devez avoir pitie de lui aussi, sans que cela empeche vos mains de le faire disparaître de ce monde. Bram Stoker, Dracula, chapitre 23. (source : Wikipedia)
