

## Shanghai Show and Go!

Shanghai Show and Go! , the 2nd in the collection of Show and Go! travel guides, presents a new idea in travel guides for people who don't know the local language. With this full-color, business card sized book in hand, you can simply show the page that has what you want to communicate to a cabdriver, hotel clerk, or someone on the street; they'll point the way and you will find what he needs. Each page has both English and Chinese with the Mandarin pronunciation, Pinyin, which shows the user how to actually say the Chinese words! These pocket-size pages are full of useful travel phrases and information that can serve as a menu guide, a way to ask directions, or to get emergency assistance. Also included are pages on how to use Shanghai transportation (bus, subway, train, taxi), local phones, and order favorite dishes in Shanghai. This travel guide has many innovative features that really make it stand out from other typical travel books on the market today. It is the same size as a business card, so it's easy to fit into a user's pocket. It carries a small city map, a country map, illustrative icons, symbols, illustrations, and photos for quick reference. Also contained are the basic words for a traveler to get around from day to day. In addition, users have access to website updates at [ishowandgo.com](http://ishowandgo.com) when the information in the book has changed. Whether on business or just vacationing, Shanghai Show and Go! is a handy item to have.
